and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Instead of every day thinking in how to scalp the USA population they should use their brains/time in looking to develop new ideas to renovate the economy, jobs, drug problem, school problems.

It is the only country left with hard working citizens and we should be looking for a better country to the future, which is our kids.

If the idea of an extra dollar would be use for new schools, new sources of jobs etc etc. I would pay even \$5.00 more dollars per month.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
